

Call for Participation

We invite you to join us in **13th International Conference on Internet Engineering & Web Services (InWeS 2022)**

This conference will provide an excellent international forum for sharing knowledge and results in theory, methodology and applications of Internet Engineering & Web services environment. Current information age is witnessing a dramatic use of digital and electronic devices in the workplace and beyond. Internet Engineering & Web services present a rather arduous requirement of robustness, reliability and availability to the end user. Internet Engineering & Web services has received a significant and sustained research interest in terms of designing and deploying large scale and high performance computational applications in real life. The aim of the conference is to provide a platform to the researchers and practitioners from both academia as well as industry to meet and share cutting-edge development in the field.

Highlights of InWes 2022 includes:

- 8th International Conference on VLSI and Applications (VLSIA 2022)
- 2nd International Conference on Advances in Computing & Information Technologies (CACIT 2022)
- 9th International Conference on Signal Processing (CSIP 2022)
- 3rd International Conference on Big Data, Machine Learning and IoT (BMLI 2022)
- 6th International Conference on Networks and Security (NSEC 2022)

Registration Participants

Non-Author / Co-Author / Simple Participants (no paper)

250 USD (With proceedings)
